

MOONSHINE BABY Baby Jail 1987 (Text: Boni Koller)

Down the local disco, two hours past midnight
I was looking for the real love or an easy ride
I saw you sitting there alone in ther dimmer light
You smiled to me so sexy and your teeth glanced white

Oh moonshine baby, there was no moon
No sky above us, we were in a room
Moonshine baby, no moon tonight
I wish I never saw you in the morning light

We were dancing in a corner, quite dark spot
We couldn't see very much but we could feel a lot
Finally you took out your chewing gum
It was late and we were tired so went home

Oh moonshine baby, there was no moon
No sky above us, we were in a room
Moonshine baby, no moon tonight
I wish I never saw you in the morning light

My place is very nice, got a kingsize bed
Got lights in every colour, blue green red
Things worked very well, we were not sad
Only since I woke up I feel bad

Oh moonshine baby, there was no moon
No sky above us, we were in a room
Moonshine baby, no moon tonight
I wish I never saw you in the morning light
